CAREER OBJECTIVES :

Backend focused software engineer with a strong foundation in Data structure and algorithm, OOP, web technologies, and database management. Proficient in Html, CSS, Javascript, Python, Django, SQL, Git, and GitHub, with a passion for designing scalable, efficient, and user-centric applications. Eager to contribute technical expertise, problem-solving abilities, and a commitment to continuous learning in a dynamic software development environment while building a successful career as a Software Engineer.

Work Experience :

Software Developer Intern, CodeAlpha (Remote)

1 Month

- Developed web applications using Python, Django, and MySQL.
- Implemented backend features following the Django MVT architecture.
- Used Git and GitHub for version control and collaboration.
- Tested, debugged, and optimized application performance.

Executive Member, BASIS Student Forum, IUBAT Chapter 2025

2025 – Present

- Assisted in organizing technical events, workshops, and seminars.
- Coordinated event logistics and collaborated with the executive team.
- Promoted student engagement through technology-focused initiatives.

EDUCATION

International University of Business Agriculture and Technology (IUBAT)

Dhaka, Bangladesh

Bachelor of Science in Computer Science and Engineering (B.Sc. CSE) | CGPA: **3.67/4.00**

January 2023 – January 2027

Kumudini Government College

Tangail, Bangladesh

Higher Secondary Certificate (HSC) | GPA: **5.00/5.00**

2018 – 2020

TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++, C#, JavaScript, SQL
- **Web Technologies:** HTML5, CSS3, Django
- **Databases:** MySQL
- **Version Control:** Git, GitHub
- **Tools & Platforms:** VS Code, XAMPP, Jupyter Notebook, Kaggle
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, REST API, MVT Architecture, Database Management Systems (DBMS)
- **Soft Skills:** Problem Solving, Teamwork, Communication, Leadership, Time Management

Projects:

Mobile Recharge Management System using PHP, MySQL, HTML, CSS, XAMPP

- Developed a web-based mobile recharge management system with secure user authentication.
- Implemented recharge transactions, customer management, and MySQL database integration.
- Designed a responsive user interface and performed CRUD operations for efficient data management.

Rock-Paper-Scissors Game using HTML, CSS, JavaScript

- Developed an interactive browser-based Rock-Paper-Scissors game using JavaScript.
- Implemented game logic, score tracking, and random computer move generation.
- Designed a responsive and user-friendly interface with real-time game updates.
